

Mini-ASSY-BL

The Mini Accessories Borderless Embedded Part (Mnemonic: Mini-ASSY-BL) is a premium flush-mount accessory designed exclusively for the Creatrol Mini Sensor series. Engineered for high-end architectural projects, this component allows the sensor to sit perfectly flush with the ceiling or wall surface. Once plastered over, it achieves a truly "edgeless" and "invisible" aesthetic, allowing the technology to blend seamlessly into the interior design.

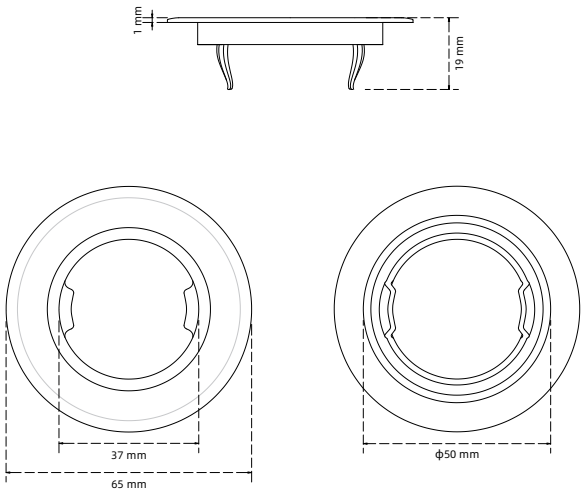

Features

- Invisible Aesthetic: Eliminates visible bezels for a clean, minimalist look.
- Architectural Integration: Designed to be installed during the construction or renovation phase for a permanent, built-in finish.
- Precision Fit: Specifically tailored for the Mini Sensor series to ensure a secure and stable mounting.
- Durable Construction: Made from high-quality ABS material for long-term structural integrity.

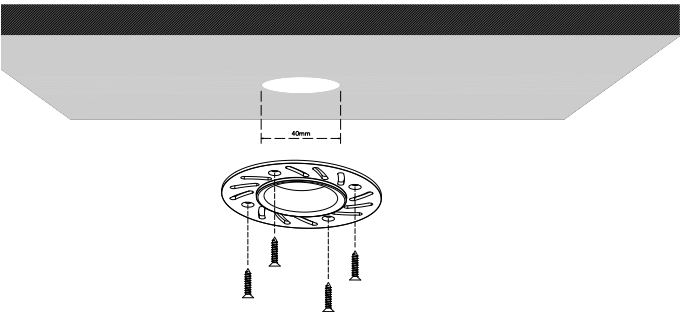

Specifications

Installation	Flush Mount / Mud-in (Concealed)
Outer Diameter	Φ80 mm
Cutout Diameter	Φ40 mm
Screw Hole Spacing	62 mm
Profile Height	13 mm
Plaster Thickness	3 mm
Net Weight	10.5 g
Material	ABS
Color	White, Black

Dimensions

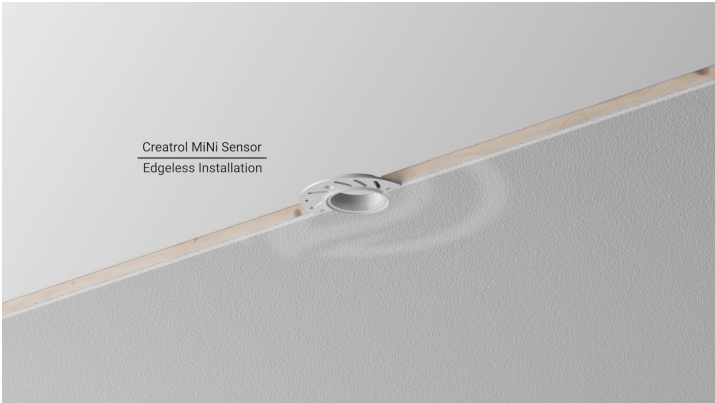

Installation Brief

1. Preparation: Drill a Φ40 mm hole in the ceiling.
2. Mounting: Secure the pre-embedded part into the hole using four screws.
3. Finishing: Apply plaster (recommended thickness: 3 mm) to the surface until it is flush with the mounting ring.
