

Mini-ASSY-55

The Mini Accessories Embedded 55 Hole Remedial Ring (Mnemonic: Mini-ASSY-55) is a cost-effective and efficient retrofit solution. It is specifically designed for scenarios where sensor mounting holes have been cut too large. Featuring a specialized clip-on design, this adapter resolves installation failures and loose fits, eliminating the need for expensive ceiling repairs or sensor replacements.

Dimensions

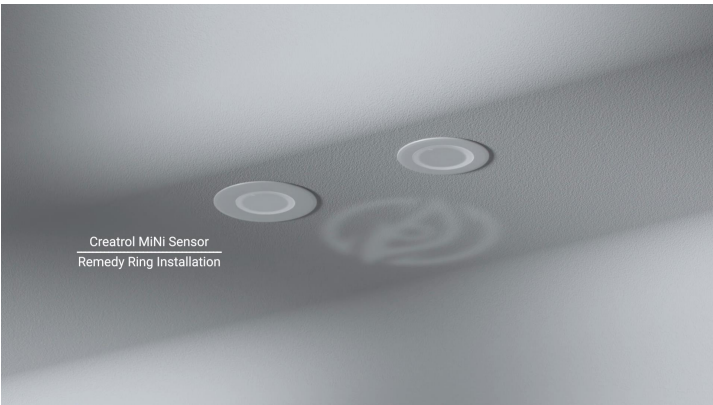

Features

- Problem Solver: Specifically addresses oversized cutout dimensions that cause loose fits.
- Secure Fit: The clip-on design ensures the sensor remains securely mounted to the ceiling.
- Efficiency: Reduces downtime and avoids the high cost of ceiling reconstruction.
- Versatile Design: Available in both White and Black to match different interior aesthetics.

Installation Brief

1. Alignment: Combine the clamping groove on the side of the Mini sensor with the buckle (snap) of the repair ring.
2. Verification: Confirm that the connection is stable and will not fall off.
3. Final Mounting: Proceed to install and fix the combined unit into the ceiling normally.
